

GoWeed Ultra

A Non-Selective Bio-Herbicide for Weeds

GoWeed Ultra

A Non-Selective Bio-Herbicide for Weeds

APPLICATION RATE TABLE

Final mix volume	FL.OZ.
1Gallon	4.5
5 Gallon	22.5
- Complete drenching (overall wetting) of weeds is necessary. - We recommend 68° F to 113° F as the optimal temperature for GoWeed Ultra to obtain the best result. - If it rains within 8 hours of spraying re treatment may be necessary. - Some hard-to-control weeds and grasses may require more than one application. - Use constant, brisk agitation. - Repeat application as necessary. Coverage is essential to establish control. - The use of a spreader/sticker may increase contact and efficacy of the treatment. - Frequent applications are required for the weeds more than 6 inches in height. - The pH of the water should be adjusted to 5.0–5.5 before mixing with the product.	

Recommended Dosage

Weeds/Plant height	Concentration	Mixing rate (Per 1 gal water)
Up to 6 inches	3.5%	4.5 FL.OZ
6-12 inches	4.5%	5.8 FL.OZ
Over 12 inches	6.5%	8.3 FL.OZ

Application rates are recommended based on weed height. Actual concentrations may be adjusted higher or lower depending on weed type, density, and field conditions.

SHAKE WELL BEFORE USE

This product has not been registered by the United States Environmental Protection Agency. Miklens Bio Pvt. Ltd represents that this 25(B) product Federal FIFRA exempt from registration with the Protection Agency under is Environmental regulations.

Storage:

Keep away from food, feed stuffs and water supplies. Store in original container with the lid tightly closed. Store between 50°F and 60°F (10°C and 15.6°C) to prevent crystallization. Formulations containing herbs may change color over time; however, product efficacy remains unchanged. Do not expose the product to direct sunlight for prolonged periods.

Disposal:

Do not reuse an empty container, please recycle it when possible. If available discard in a sanitary landfill. If partially filled call your local solid waste agency for disposal. Never place unused product down an indoor or outdoor drain.

GoWeed Ultra, a revolutionary Bio Herbicide, promotes environmental sustainability by enabling residue-free cultivation without leaving any harmful effects behind when used as directed.

It is a contact, non-selective, broad spectrum Bio-Herbicide. It controls both annual and perennial broad leaf and grassy weeds.

It affects only those plants that are coated with the spray solution.
